

Back - Development:

Might Add:

- ☐ 2 more page for user profile(update/see) and Order status(payment done and due both)
- ☐ Log out option
- ☐ Mobile view front page / menu not responsive
- ☐ a contact us form/page
- ☐

Requirements:

☒ ~~Features and Activities (done)~~

- ☐ sign-up normal/facebook
- ☐ accept user order for 10 free
- ☐ Accept user order for 50 follower package with paypal payment
- ☐ Get User Feedback contact us

☒ ~~Users (done)~~

1. Admin
2. Logged In user

Design:

☒ ~~Use case (done)~~

Admin:

- (i) CRUD user
- (ii) CRUD order
- (iii) READ Delete messages

User:

- (i) Create Order
- (ii) CREAT messages

☒ ~~Design database (check one more and set as done)~~

```
class Order(models.Model):
    by_user = models.ForeignKey(User, blank = True, null = True, related_name="owner")
    time = models.DateTimeField(blank = True, null = True)
    amount = models.IntegerField()
    order_social_site = models.CharField(max_length = 230,default = "Did Not Put")
    order_social_site_user_name = models.CharField(max_length = 30,default = "Did Not Put")
    order_social_site_url = models.CharField(max_length = 30,default = "Did Not Put")
    choices = (
        (u'1',u'instagram'),
        (u'2',u'facebook'),
        (u'3',u'youtube'),
    )
    type = models.CharField(max_length = 230,default = "Did Not Put", choices = choices)
    payment_status = models.BooleanField(default=False)
    visibility_by_admin = models.NullBooleanField(null=True,default=null)
```

```
class Message(models.Model):
    email = models.CharField(max_length = 50,default = "Did Not Put")
    time = models.DateTimeField(blank = True, null = True)
    text = models.TextField(blank = True, null = True)
    name = models.CharField(max_length = 30,default = "Did Not Put")
    read_unread_status = models.BooleanField(default=False)
```

☒ ~~Design Each page structure in html~~

Main(index.html):

Nothing just show the page. And edit on html file to redirect correctly

FreeOrder(free.html):--

Only if logged in. If not send to enter page

Insert free 10 follow Order by user , take all order info from him

PremiumOrder(buy.html):--

Only if logged in. If not send to enter page

Insert Order by user , take all order info from him. Keep order Payment as False

Make sure the payment is done and mark the order payment as True.

enter (login.html):

Insert User normally or with facebook account

Logging user normally or with facebook account

☐

☐ Apps

Enter:

☐ enter (login.html):-

☐ Sing-up (Insert) User normally or with Facebook account

☐ Log-in user normally or with Facebook account

Front:

☐ Main(index.html):-

☐ show the front page. And edit on html file to redirect correctly

Orders:

☐ FreeOrder(free.html):-

☐

☐ Take Free Order From User with all order info

☐ PremiumOrder(buy.html):-

☐ Only if logged in. If not send to enter page

☐ Insert Order by user , take all order info from him. Keep order Payment as False

☐ Make sure the payment is done and mark the order payment status as Null

☐

☐ PaymentProcess(process.html):-

☐ accept payment by showing order

☐

☐ PaymentDone(done.html):-

☐ Change Order Payment status done

☐

☐ PaymentCancel(cancel.html):-

☐ Keep Order Payment status cancel

Development (Tasks):
